

Leon Paul printable tape measure (celotape and scissors required)

INSTRUCTIONS: Firstly select print. Then in the page handling section make sure page scaling is set to none (this is essential or you tape measure will be short than it should be) then print this pdf. Take your scissors and cut along the marked lines in order starting with line A (do not cut off the shaded area you will need this). Next tape the ends over the shaded sections to make a tape measure.
